## WORDS FROM OUR PRESIDENT

Last week, our guest speaker, Bryan Harris, focussed on the activities of the Water and Sanitation Rotarian Action Group (WASRAG). It complimented last week's 'Water and Sanitation' presentation by focussing on several specific Rotary projects.

Some interesting statistics that I have researched are that an estimated 790 million people (11% of the world's population) are without access to an improved water supply and 1.8 billion people (25% of the world's population) are without access to adequate sanitation. Rotary is at the forefront working to reduce these percentages.

The cancellation of the Whyalla Rotary District 9500 Conference by our District Governor, Jane Owens, is yet another sign of the many worldwide challenges due to the corona virus. South Australia had 19 confirmed cases as of last Saturday and measures now in place should help to reduce the number of overall increases.

On a much more positive note, don't miss our business networking dinner meeting on Tuesday with the induction of two new members. Our guest speaker, comedian, Glynn Nicholas, has performed all around the world and will provide us with some great entertainment so bring your partner and some guests.

Yours in Rotary

Kevin Tiggy

## GUEST SPEAKERS- TUES, 10TH MARCH

Bryan Harris has been a member of Rotary since 1998 and is a past president of the RC of Adelaide. With a degree in geology, a Master of Science (hydrogeology) and extensive career experience in the private and public sectors, he is well positioned to add to our knowledge of water and sanitation projects.

Bryan explained that 80% of illnesses in developing regions are attributed to poor quality water and sanitation issues. He spoke about several diverse Rotary projects aimed at redressing this problem and focussed on the challenges and evaluated the solutions devised for each case.

birikuts

Case Study 1: With assistance from Rotary, the nomadic people of the Afar region of Ethiopia, found a solution to their drought related critical water shortage by constructing by hand two birikuts. Each birikut consists of a small iron covered dam - the project provided water for 2500 people.

Case Study 2: When the 2011 tsunami struck the Maldives, virtually all shallow aquifers were contaminated leading to a critical shortage of clean fresh water. Help was required to install and maintain a desalination plant. With Rotary's assistance, a business model was established where desalinated water was sold to visiting cruise ships and that money helped fund the operational costs of the desalination plant.

Case Study 3: Water filters helped Korogo Village in Papua New Guinea access clean water and thus reduce infant mortality rates. Whilst they provided significant benefits, a more sustainable solution is now being investigated. The project highlighted the need to have a partner or someone on the ground who can provide assistance.

Water filter

Bryan explained the benefits of RAWCS projects. He also outlined options and steps that can be taken to initiate water and sanitation projects and to improve outcomes.

P.S. It looks like we will need a 'Working with Children Check' (WWCC) from the Department of Human Services (DHS) as well.
I will investigate further!!!
It is compulsory if you are working with children or the aged to have a National Police Check.

## MARCH 2020 - WATER AND SANITATION MONTH

**'Clean water, sanitation, and hygiene education are basic necessities for a healthy environment and a productive life.**

When people have access to clean water and sanitation, waterborne diseases decrease, children stay healthier and attend school more regularly, and mothers can spend less time carrying water and more time helping their families.
